## RIO COLLECTION

### RIO

---

Discover an original collection of bathroom faucets that spectacularly follows the hottest trends in the world of design, introducing grooved elements into your bathroom.

RIO is the essence of harmony and completeness in the world of bathroom elegance. These are not just batteries - they are truly unique, created by the full range products: from washbasin taps, through bath taps, to sophisticated shower sets.

Regardless of whether you are a fan of classic minimalism or eccentric colors - RIO has something that will surprise and fascinate everyone.

## FLY

---

FLY is a tribute to the delicacy of form and classic elegance that will delight lovers of sophisticated design.

This collection is available in four unique finishes - chrome, matt black, shiny gold and brushed gold, it is a perfect complement to almost any style.

We have installed aerators in FLY faucets, which not only make the water stream light and pleasant, but also reduce water consumption, which translates into benefits for you and the planet.

FLY is much more than just batteries - it is an icon of beauty, style and ecological responsibility. Choose FLY and make to make your bathroom a real place of luxury and exceptional comfort.

## TEO COLLECTION

### TEO

---

Immerse yourself in the world of TEO taps - a collection created especially for those who are looking for solidity and sophisticated design. TEO combines the power of massive shapes with delicate, soft forms, creating a masterpiece of modern aesthetics.

What makes TEO the absolute quintessence of perfection? We use brass bodies and components from leading manufacturers from Spain and Germany. This is a guarantee of quality and durability that will meet even the highest expectations.

## TOCCO COLLECTION

Discover the functional revolution with TOCCO faucets. Their advanced sensor technology guarantees optimization of water consumption, activating the stream without contact after placing your hand within the range of the sensor.

This not only saves money, but also maintains high hygiene standards and eliminates the need to touch the handle. Additionally, the sensor consumes power in a pulsed manner, ensuring comfortable use with minimal power consumption.

## TAURO | FAVO | PIKO

Discover extremely stylish and practical kitchen faucets that will make your kitchen even more functional. TAURO and FAVO are collections with a pull-out spout that make it easier to fill tall vessels and reach to the edge of the sink. PIKO has a flexible spout that is perfect for two-bowl sinks.

All these collections make washing and filling dishes even more convenient, and thanks to the availability in various modern colors, everyone will find something for themselves.
